## PERSONAL STATEMENT

A collaborative, ambitious and hard-working software developer student with a great passion for software programming. I am currently in my 3rd year of BSC in computer science at Technological University Dublin. Possess strong team working skills but also able to work well individually. I am seeking an opportunity to work alongside an expert team of software engineers in which I can put into practice my knowledge and experience, ultimately benefiting the operations of General Motors. I have always had an interest in coding and building application, and eager to put my skills to work.

## ACADEMIC QUALIFICATIONS

**2020- 2023**      **Bachelor of Science in Computer Science – Year 3**
                    ***Technological University Dublin, Grangegorman Campus***
***Relevant Subjects:***

Software Engineering II – 1st, Web Development II – 1st, Database 1 - 1st, Human Computer Interaction - 1st, Mathematics 2 - 1st, Object Oriented Programming in JAVA & Python – 2:1, Algorithms and Data Structures – 2:1. Currently Studying AWS Cloud Foundation and AWS Cloud Architecture.

***Projects / Case Studies:***
***Personal Web Portfolio***
Currently working on a personal web portfolio using HTML, CSS and JavaScript to build up a modern, responsive and user-friendly website to showcase my work and skills.

***BugZap Arcade Game***
Develop an arcade game called Bug Zap in JAVA. The issues I had was to implement the bug object created separately to the main project. I had to reviewed and redesigned the main program to adapt the changes. Planned, documented, and executed tests to ensure the code changes was executing properly. The changes have improved the code efficiencies that led to a more stable prototype.

***E-Library***
Built a responsive web application using PHP and MySQL that allowed users to login, search and reserve a book as part of an online library system. Built the front-end using HTML and CSS which was connected to a database to retrieved and store information. Worked part of a team of three people. I was responsible in connecting the backend to the front end. Constantly motivate team members through offering encouragement, support and displaying a 'can do' attitude.

**2019 to 2020   Fetac Level 6 Software Development**     Rathmines College Dublin 6
Awards: Distinction
Subjects: OOP, Project Management, Networking, Relational Database, GUI, Software Architecture, Maths

**2017 to 2017   Fetac Level 5/6 Pre-Nursing**     Progressive College, Dublin 2
Awards: Merit
Subjects: Human Growth & Development, Anatomy & Physiology, Nursing Theory & Practice

**2012 to 2014   Cambridge Certificate A-Level**     Vacoas Secondary College, Mauritius
Awards: Pass
Subjects: Chemistry, Maths, English, French
